

### **1. Database complete program?**

(a) Students' abilities are not good enough to handle difficult programming writing skills. They are not able to prepare the complete program.

(b) Complete program is expected. Reasons:

- Life experience
- Good for them to prepare open exam

(c) Problems:

- Most of the students are lower achievers

### **2. Mark allocation of the real product?**

(a) Depends on the question requirements

(b) Project work flow should be conducted and delivered to students:

- Problem definition - Maybe, only part of the project title is adopted with the electives
- Terms definition
- Draft marking scheme

### **3. SBA work load**

- Very high
- Arrange lessons (after school lessons)
- Co-ordination of subject panels
- Integrated as subject matter, e.g. homework

### **4. Titles may not be directly related to the elective skills**

- Preparation task may be conducted. Clarify students' directions and project objectives.

### **5. Assessment Criteria:**

(a) Objectives

- Should be related to the Design part

(b) Analysis

- Pre-task should be arranged
- Student and teacher interview
- Questionnaire

### **6. New SBA title:**

(a) Restaurant order placement system

- Ordering food
- Reserve seat
- Invoice
- Discount coupon (with Wi-Fi and Database system)
- Webpage for promotion
- With video promotion

(b) Tutorial Enrollment System in a Chain Tutoring School

(c) Joint School Sport Day Enrollment System

(d) Joint School Lunch Box Order Placement System
