

Minimise costs and environmental impact without the hassle

A mere 1.0-watt power consumption in Sleep mode

The bizhub C554e/C454e achieves even further energy savings in Sleep mode by reducing power consumption from the C554/C454's 3.0 watts to just 1.0 watt.

More environmentally considerate materials

Recycled materials are effectively employed for the outer surfaces such as recycled PC/PET developed by Konica Minolta using advanced chemical processing technology, recycled PC/ABS and bioplastics to help reduce environmental impact.

PC+PET (recycled)

KONICA MINOLTA

MINIMISE ALL. MAXIMISE ALL.

bizhub C554e / C454e

Giving Shape to Ideas

For small businesses to large corporations Versatile solutions that keep you ahead

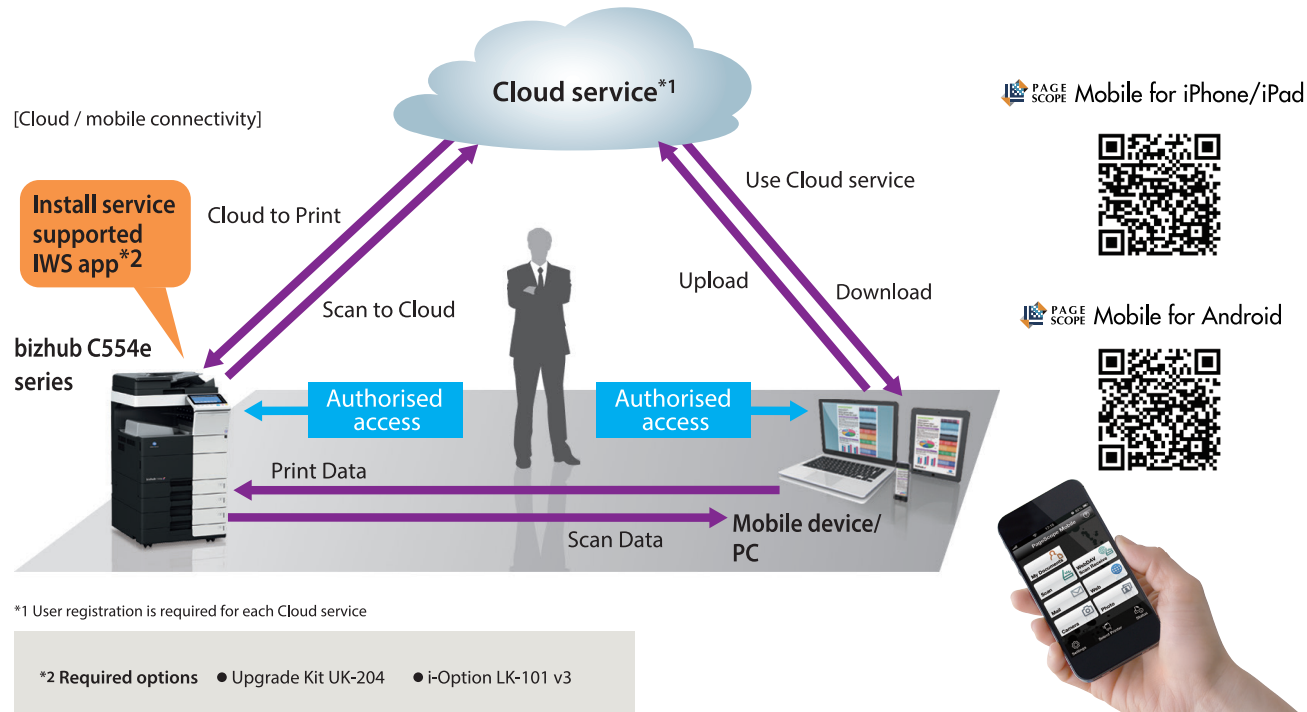

Advanced operations for a new work style

■ Connect with mobiles and Cloud

Discover a new and freer work style with the bizhub C554e/C454e. PageScope Mobile allows printing and scanning from mobile devices such as smartphones and tablets, as well as from the PCs, and maximises productivity and efficiency without additional operating costs by accessing Cloud services

such as Google Drive™ and Dropbox™ for an office-like work environment even from outside the company. Cloud/mobile/bizhub connectivity further enhances information sharing and use for greater business efficiency.

Smart & simple Comfortable operations for everyone

■ Ready-to-use operability for anyone

The bizhub C554e/C454e adopts the easy and intuitive INFO-Palette design smart user interface, providing the same user experience in any business situation through seamless operation even from PCs, tablets and smartphones.

Uniform operations make information sharing smoother.

■ Easy smartphone-like operation

The bizhub C554e/C454e implements the new multi-touch user interface which realises the same intuitive operation as mobile devices. Smartphone-like tap, flick and pinch make operations easier and more comfortable.

High-level multi-functional solutions for immediate office use

■ Convert hardcopies into MS Office files

Scan printed documents to create reusable Microsoft Office*1 files (PowerPoint, Excel*2, Word*2). And choose from five types of PDF files according to purpose, including Compact PDF, Encrypted PDF and Searchable PDF.

Convertible PDF files

Searchable PDF (for digitising text via OCR of text)*2
Compact PDF (for creating highly compressed PDFs)
Encrypted PDF (for adding digital IDs)
PDF/A (for long-term archiving)
Linearised PDF (for optimised web display)

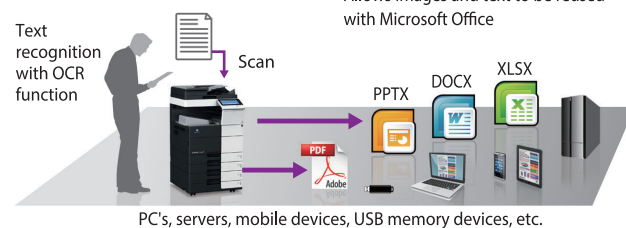

Convertible Office files

OOXML files*1 (extensions: .docx*2, .xlsx*2, .pptx)

*1 Microsoft Office 2007 or later format *2 Optional

[Scan to PDF] [Scan to OOXML]

- OCR processing allows text searches
- Allows images and text to be reused with Microsoft Office

Required options

For converting PowerPoint files with OCR
(Options not required for PowerPoint conversion without OCR)

- Upgrade Kit UK-204
- i-Option LK-105 v3 or i-Option LK-110

For converting Word and Excel files

- Upgrade Kit UK-204
- i-Option LK-110

■ Beautiful high-quality colour outputs

Print thin lines and small text more clearly in real 1,200 dpi full-colour high resolution to create more convincing documents.

■ Optimal device placement for eco-conscious performance

Konica Minolta's consulting service, Optimised Print Services (OPS), promotes greater business efficiency through optimal device placement and reduced TCO. Optimally placing devices with better environmental performance also reduces power costs.

■ Optimal security regardless of scale and environment

Build the optimal device security system according to use and scale with a variety of authentication systems including server-free MFP authentication, connecting with the already operating authentication server, IC card authentication using employee IDs and the sure-safe biometric authentication. The bizhub C554e/C454e achieves an unparalleled level of security by complying with IEEE 2600.1 international standard for MFP and printer information security.
